ABOUT MUN

A **Model United Nations** is an academic simulation of the United Nations where students role-play as delegates representing countries, engage in research, debate global issues, and draft policy solutions, following formal UN proceedings. It aims to educate participants about international relations, diplomacy, current global affairs, and the operations of the United Nations. Participants research their assigned country, prepare speeches on assigned topics, collaborate and create resolutions, and encourage civic engagement. MUN helps students develop networking, negotiation, persuasion, public speaking, leadership, teamwork, communication, writing, and research skills.

ABOUT TSCMUN

SEASON 2 IS HERE

TSCMUN returns for Season 2 after making history as the first-ever school-level Model United Nations conference conducted under **Thiruvithamcore Sahodaya Complex**. It is a platform where young minds are invited to engage in the intricate art of diplomacy, dialogue, and debate, representing nations with insight and poise. As the world transitions into an era where youth voices are not merely heard but profoundly respected, TSCMUN empowers its delegates to participate meaningfully in shaping discourse and envisioning solutions. Through the confluence of critical thinking, empathy, and global savoir-faire, TSCMUN sets the stage for future leaders to rise. It is in this spirit of collaboration and commitment that students come together to forge paths toward a sustainable, peaceful, and equitable future. Among its flagship committees, the **United Nations General Assembly (UNGA)** mirrors its real-world counterpart, tasked with multilateral dialogue, policy formation, and the resolution of pressing global challenges. True to the UN's charter, the UNGA focuses on promoting international peace and security, and strengthening cooperation between nations.

AGENDA

Strengthening Global Cooperation for Sustainable Peace and Security

Sustainable peace and security serve as the essential foundations for a stable, prosperous, and harmonious world, yet the international community faces interconnected challenges—such as armed conflicts in Ukraine and Iran, terrorism, political instability, human rights violations, cyber threats, and escalating geopolitical tensions—that transcend national borders and threaten global development. Because no single nation can independently overcome these multifaceted threats, strengthening international cooperation, fostering trust, and respecting international law are vital to achieving collective security. In alignment with this mission, TSC MUN adopts the theme “Peace Beyond Borders” to nurture diplomacy, empathy, and critical thinking in young delegates who will shape the future. Addressing these global challenges requires a comprehensive approach: nations must work together to reinforce international institutions, encourage disarmament, support peacekeeping initiatives, and eliminate the root causes of conflict by tackling poverty, inequality, discrimination, and social injustice. Ultimately, by developing robust partnerships among governments, international organizations, and civil society, and by promoting unity beyond geographical and political boundaries, the global community can overcome its differences and secure a safer, more inclusive future for generations to come.
